

ECM-30 Measuring Microphone

This microphone is used for measuring of speakers, amplifier systems, and measuring of room acoustics. It is especially for high quality recording.

Specification:

Type	Condenser microphone
Frequency Response	30Hz~18KHz at +/- 1dB
Sensitivity	5.6mV/Pa/1KHz
Impedance	500 Ohm
Max. SPL	120 dB
Power Supply	48V DC/2mA external (phantom power)
Connection	6M cable with XLR balanced connection
